

What's up with the labor market?

Jacqueline Michael-Midkiff

BLS Regional Economist

Mountain Plains Information Office

Kansas Economic Outlook Series – Hays

November 3, 2017

What *is* the BLS?

- Part of U.S. Department of Labor and an independent statistical agency
- Principal Federal agency responsible for measuring
 - Labor market activity
 - Working conditions
 - Price changes in the economy
- Mission: **Collect, analyze, and disseminate** essential economic **information** to support public and private decision-making
- Serve diverse user communities by providing **products** and **services** that are accurate, objective, relevant, timely and accessible

BLS values in action

Half full?
Half empty?

► It is an 8 oz. glass with 4 oz. of liquid

The Employment Situation's **two headline indicators**

- Two independent perspectives
 - ▶ Current Population Survey (household data)
 - ▶ Current Employment Statistics (establishment data)
- Why two?
 - ▶ More complete picture—employers and employees
 - ▶ Compensating advantages

The Employment Situation's two headline indicators

■ Unemployment rate

- ▶ From household survey
- ▶ Share of people in labor force that are unemployed (by official definition)
- ▶ Detail by demographics, occupation, duration of unemployment, etc.

■ Payroll growth

- ▶ From establishment survey
- ▶ Change in jobs during period, not people
- ▶ Detail by industry

Household View

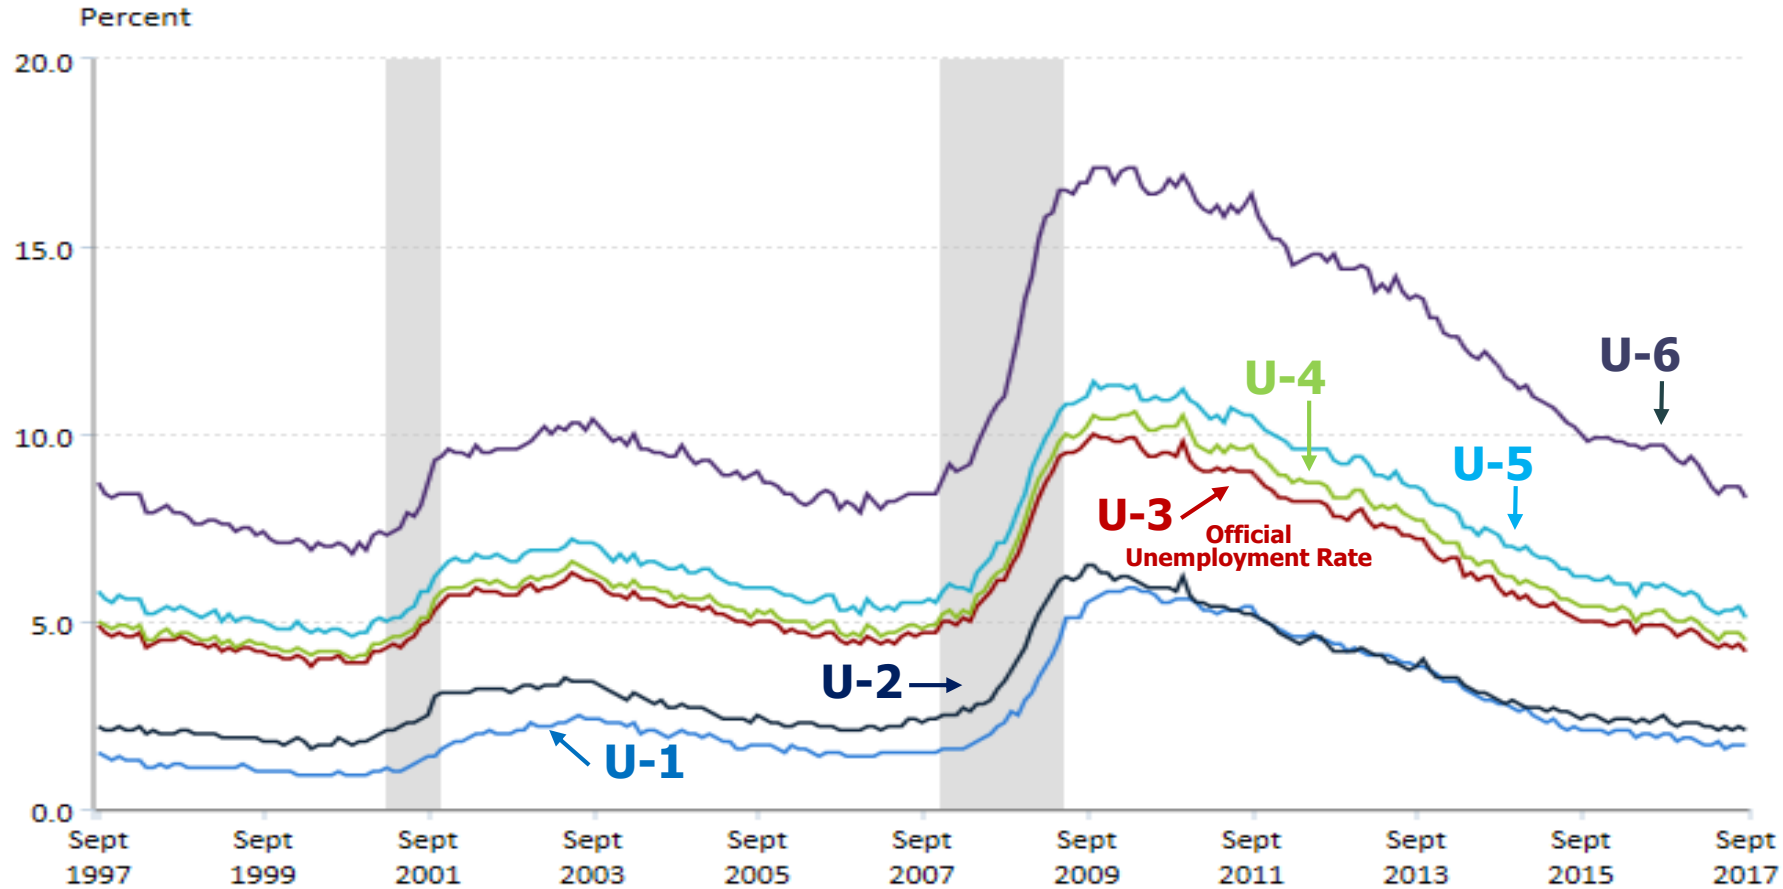

What is the current unemployment rate?

- a) 1.7 %
- b) 4.2 %
- c) 5.1 %
- d) 8.3 %

Alternative labor underutilization measures tell similar story about the recession and recovery

U-6: Total unemployed plus marginally attached workers and persons employed part time for economic reasons, as a percent of labor force plus marginally attached workers.

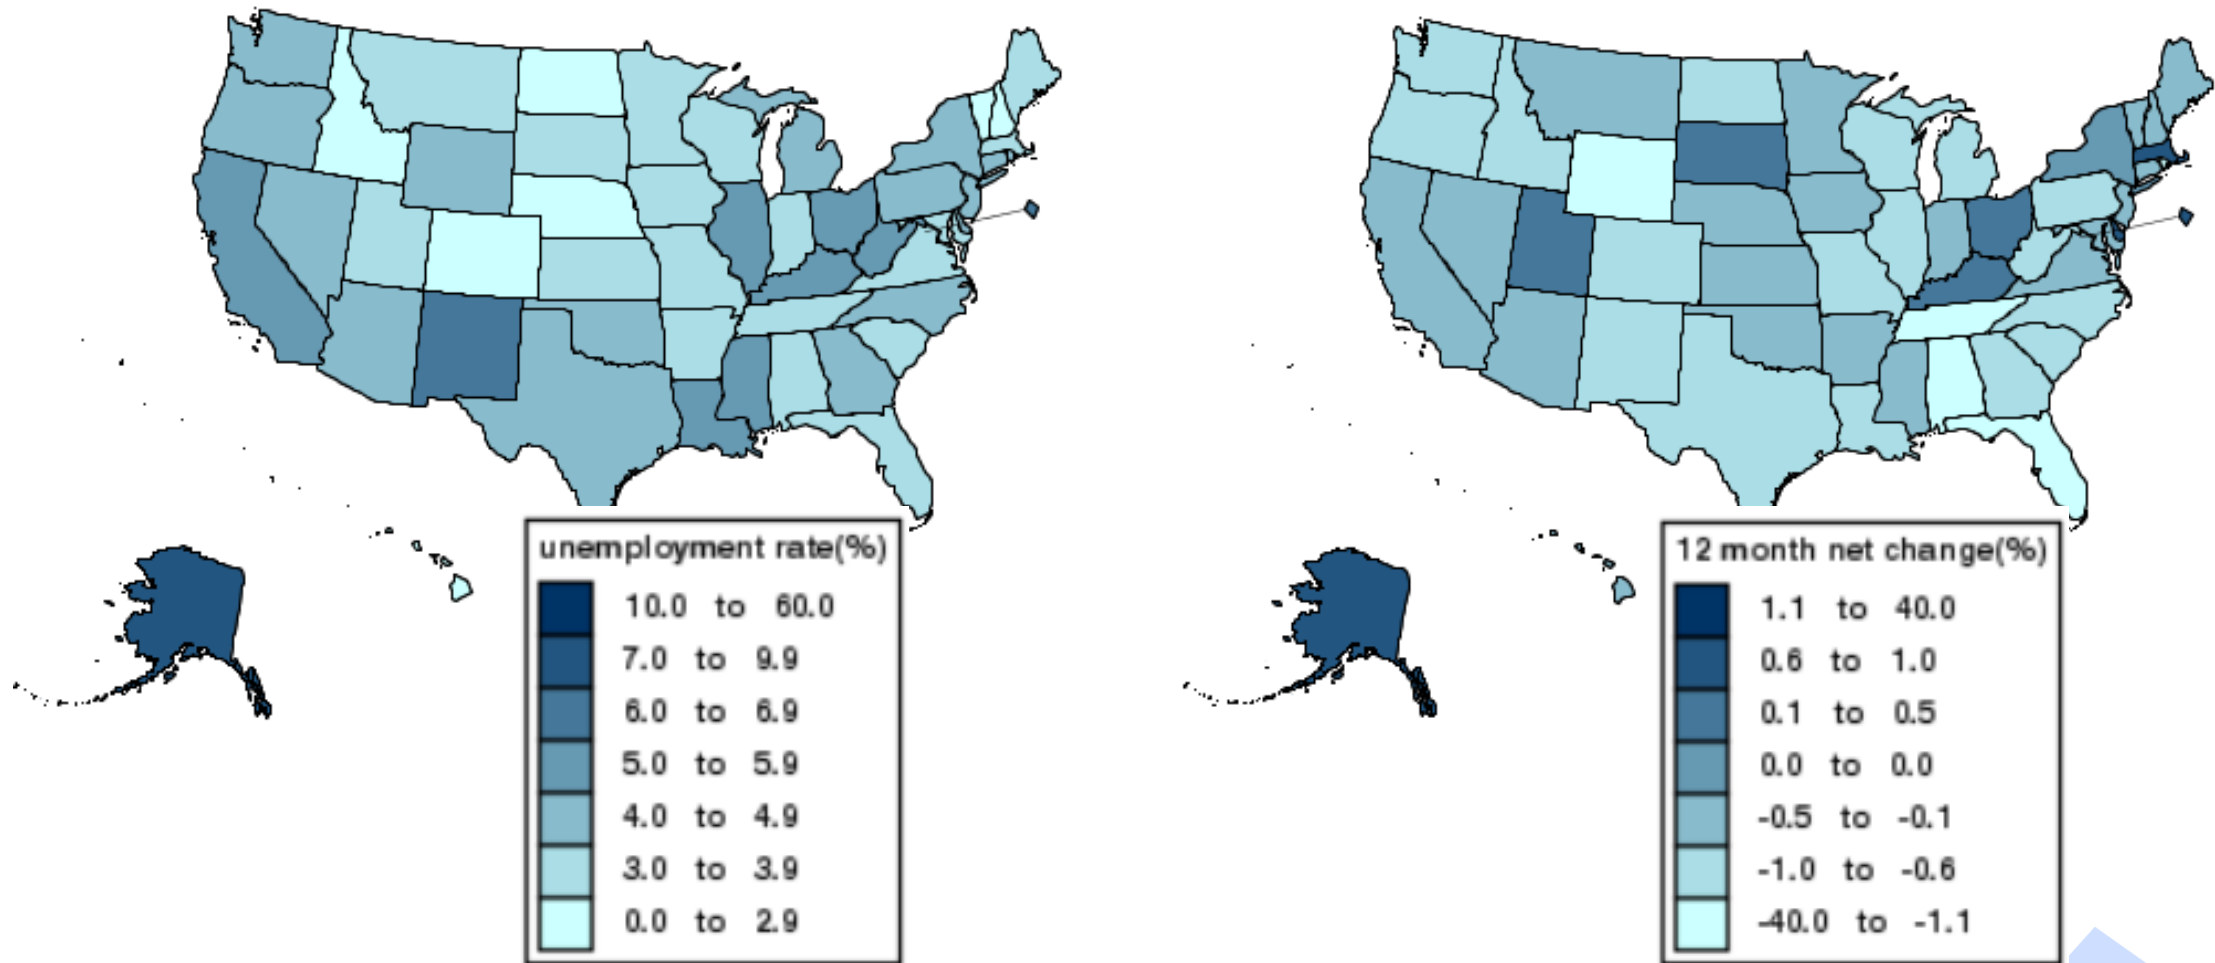

Note: Shaded area represents recession as determined by the National Bureau of Economic Research (NBER).

Source: Bureau of Labor Statistics.

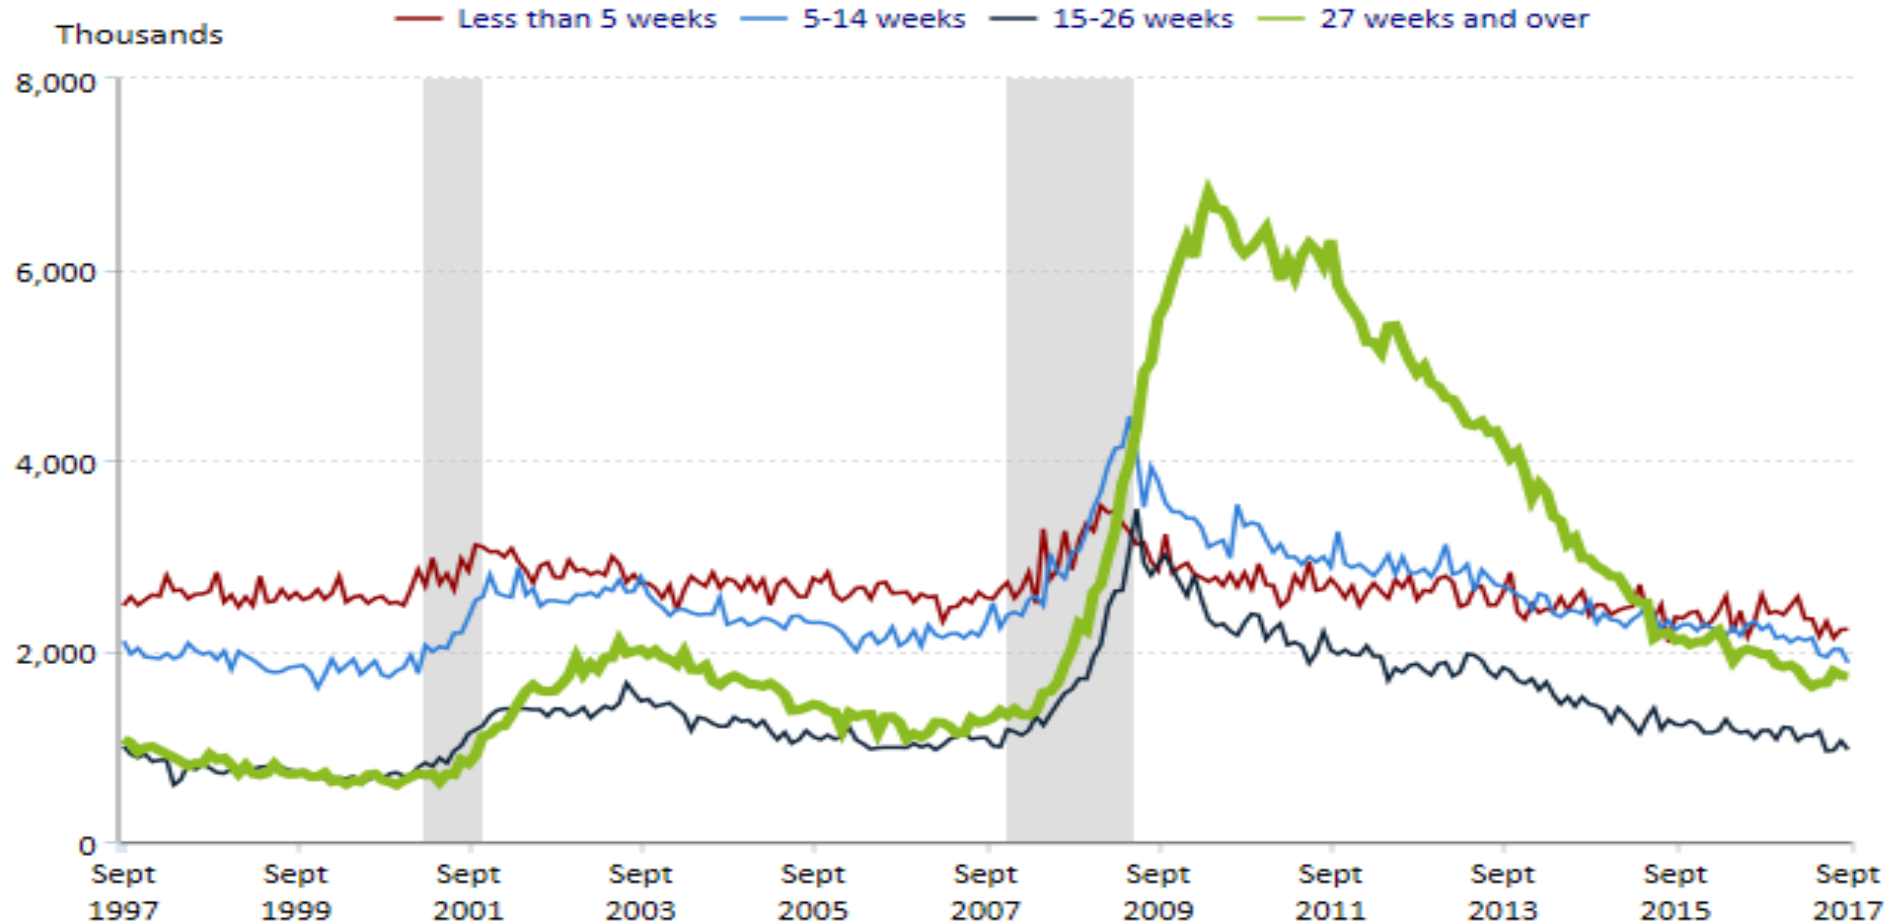

Unemployment rates fall in most states over the year (September 2017)

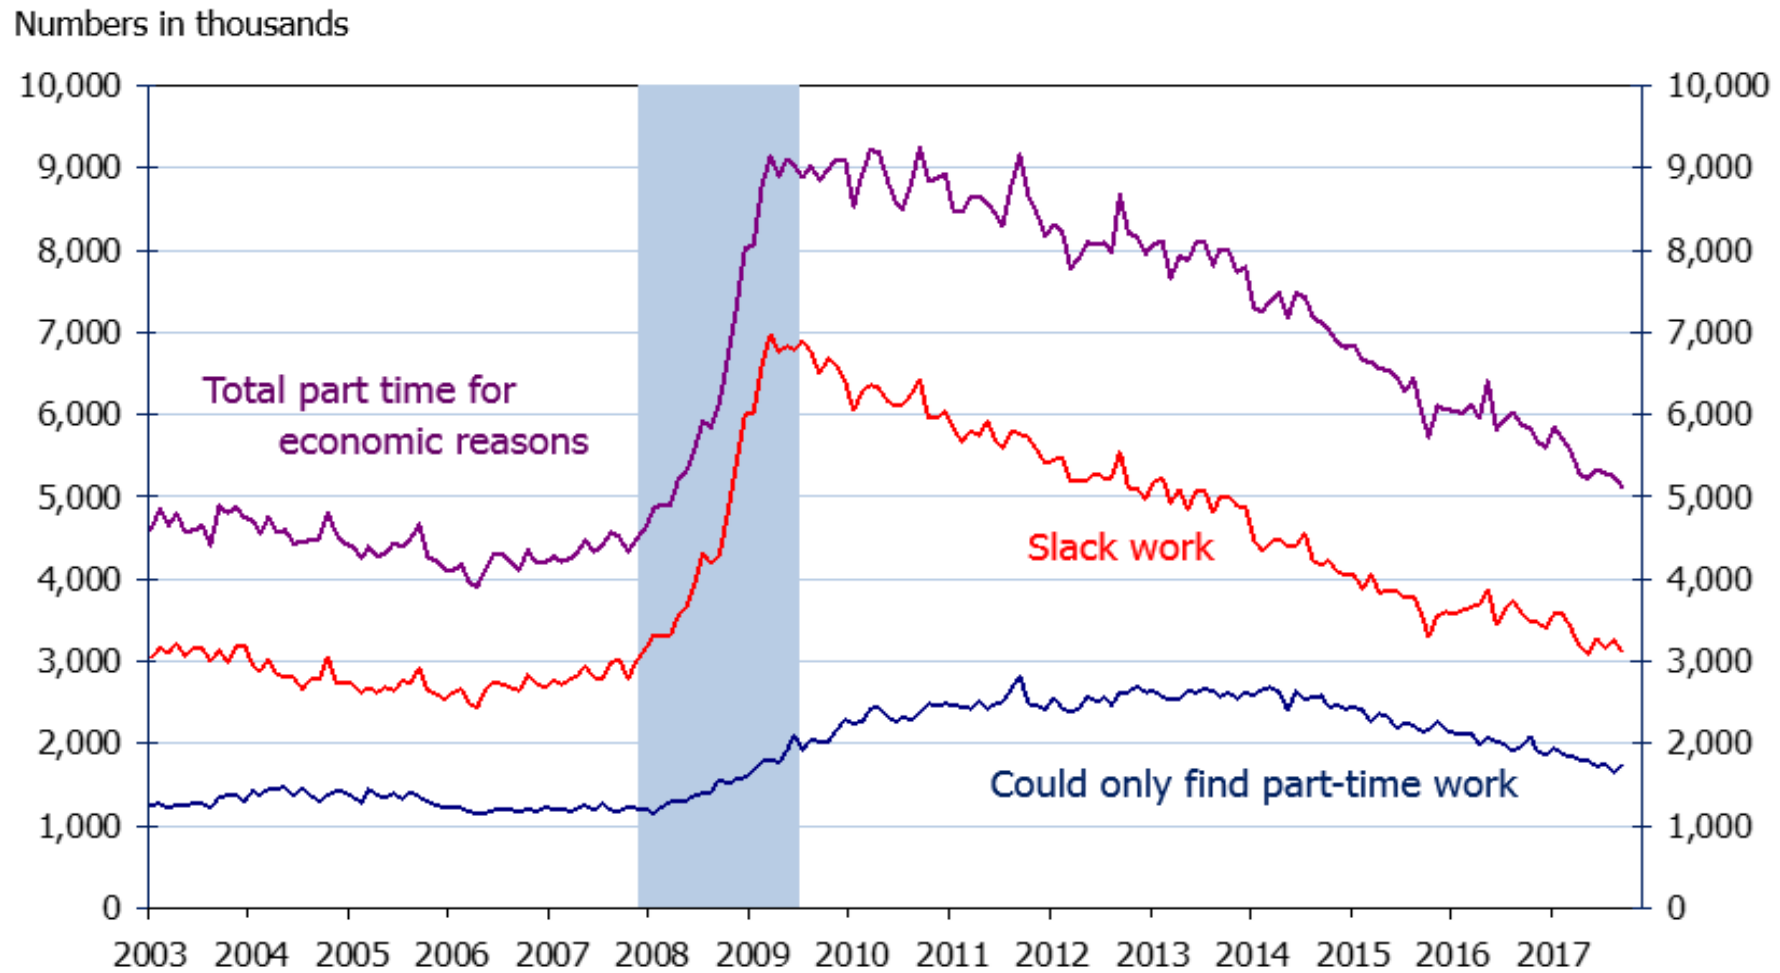

Long-term unemployment declining

Seasonally adjusted

Note: Shaded area represents recession as determined by the National Bureau of Economic Research (NBER).
Source: Bureau of Labor Statistics.

Involuntary part time work declining, but still high

Note: Shaded area represents recession as determined by the National Bureau of Economic Research (NBER).
Source: Bureau of Labor Statistics.

Establishment View

Job growth has averaged around 150,000 per month in 2017

Employment in total nonfarm

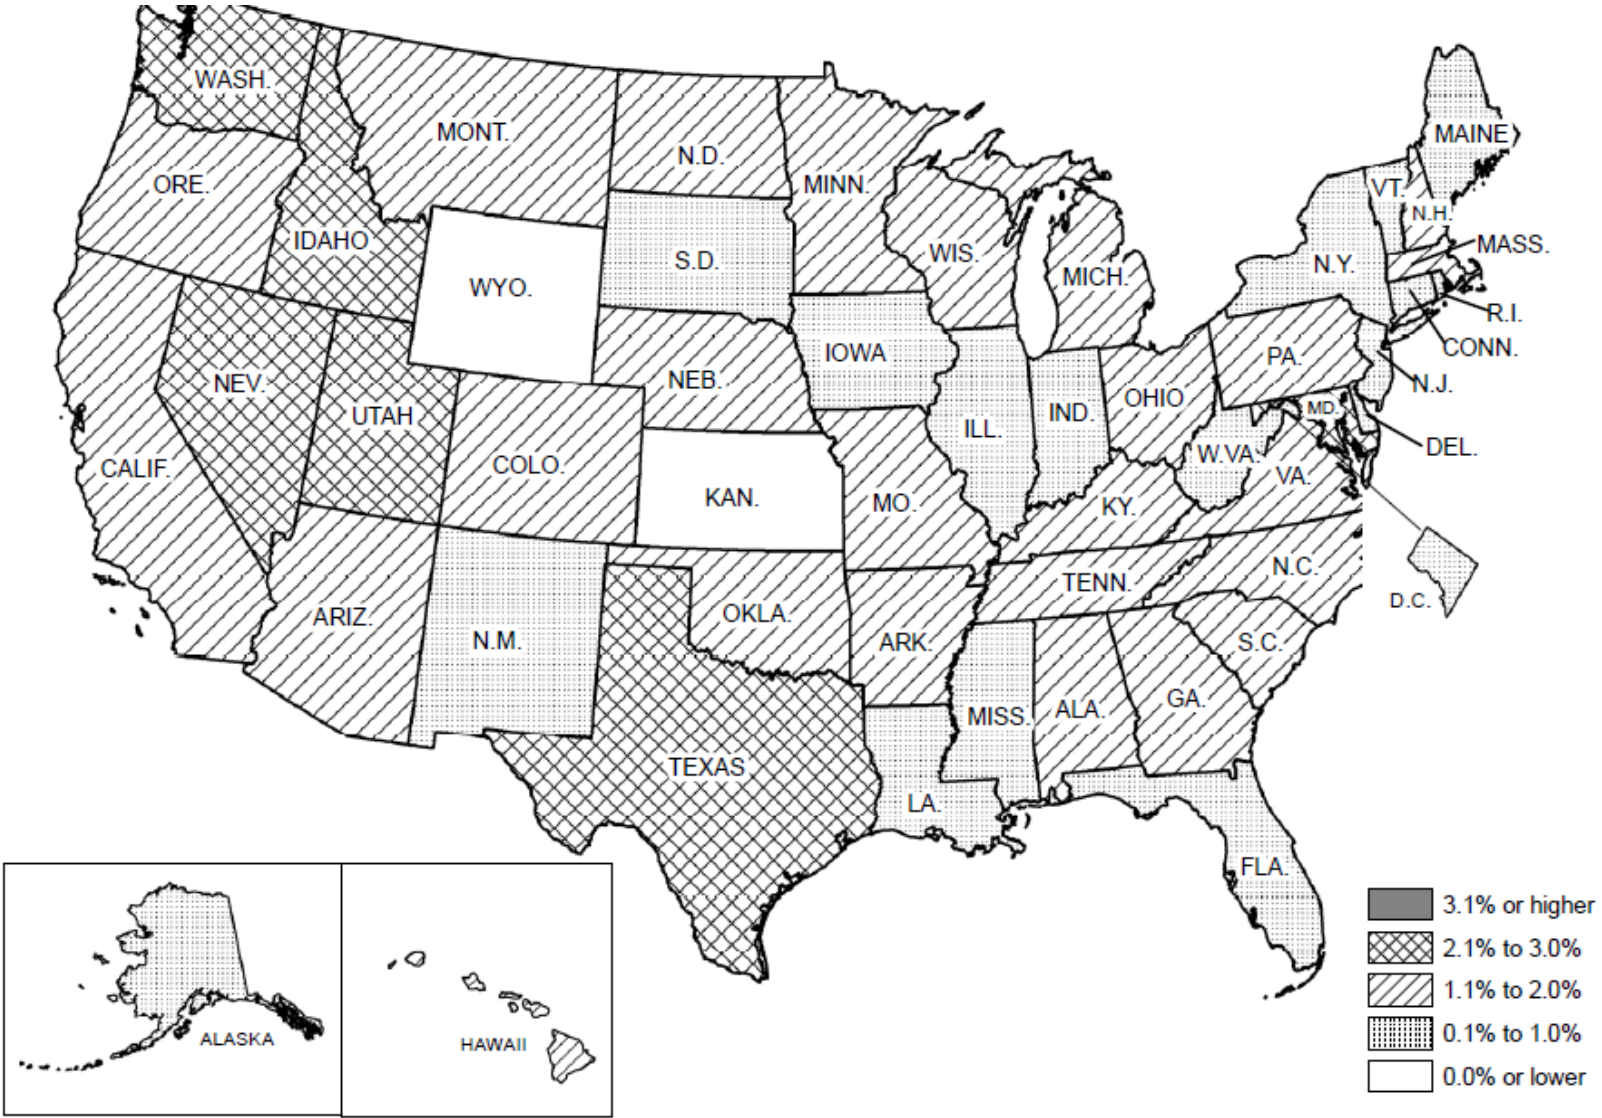

Over-the-month change, January 2014 - September 2017

Seasonally adjusted, in thousands

Bureau of Labor Statistics, Current Employment Statistics, October 06, 2017.
Most recent 2 months of data are preliminary.

Employment growth by state, Sept 2016 – Sept 2017

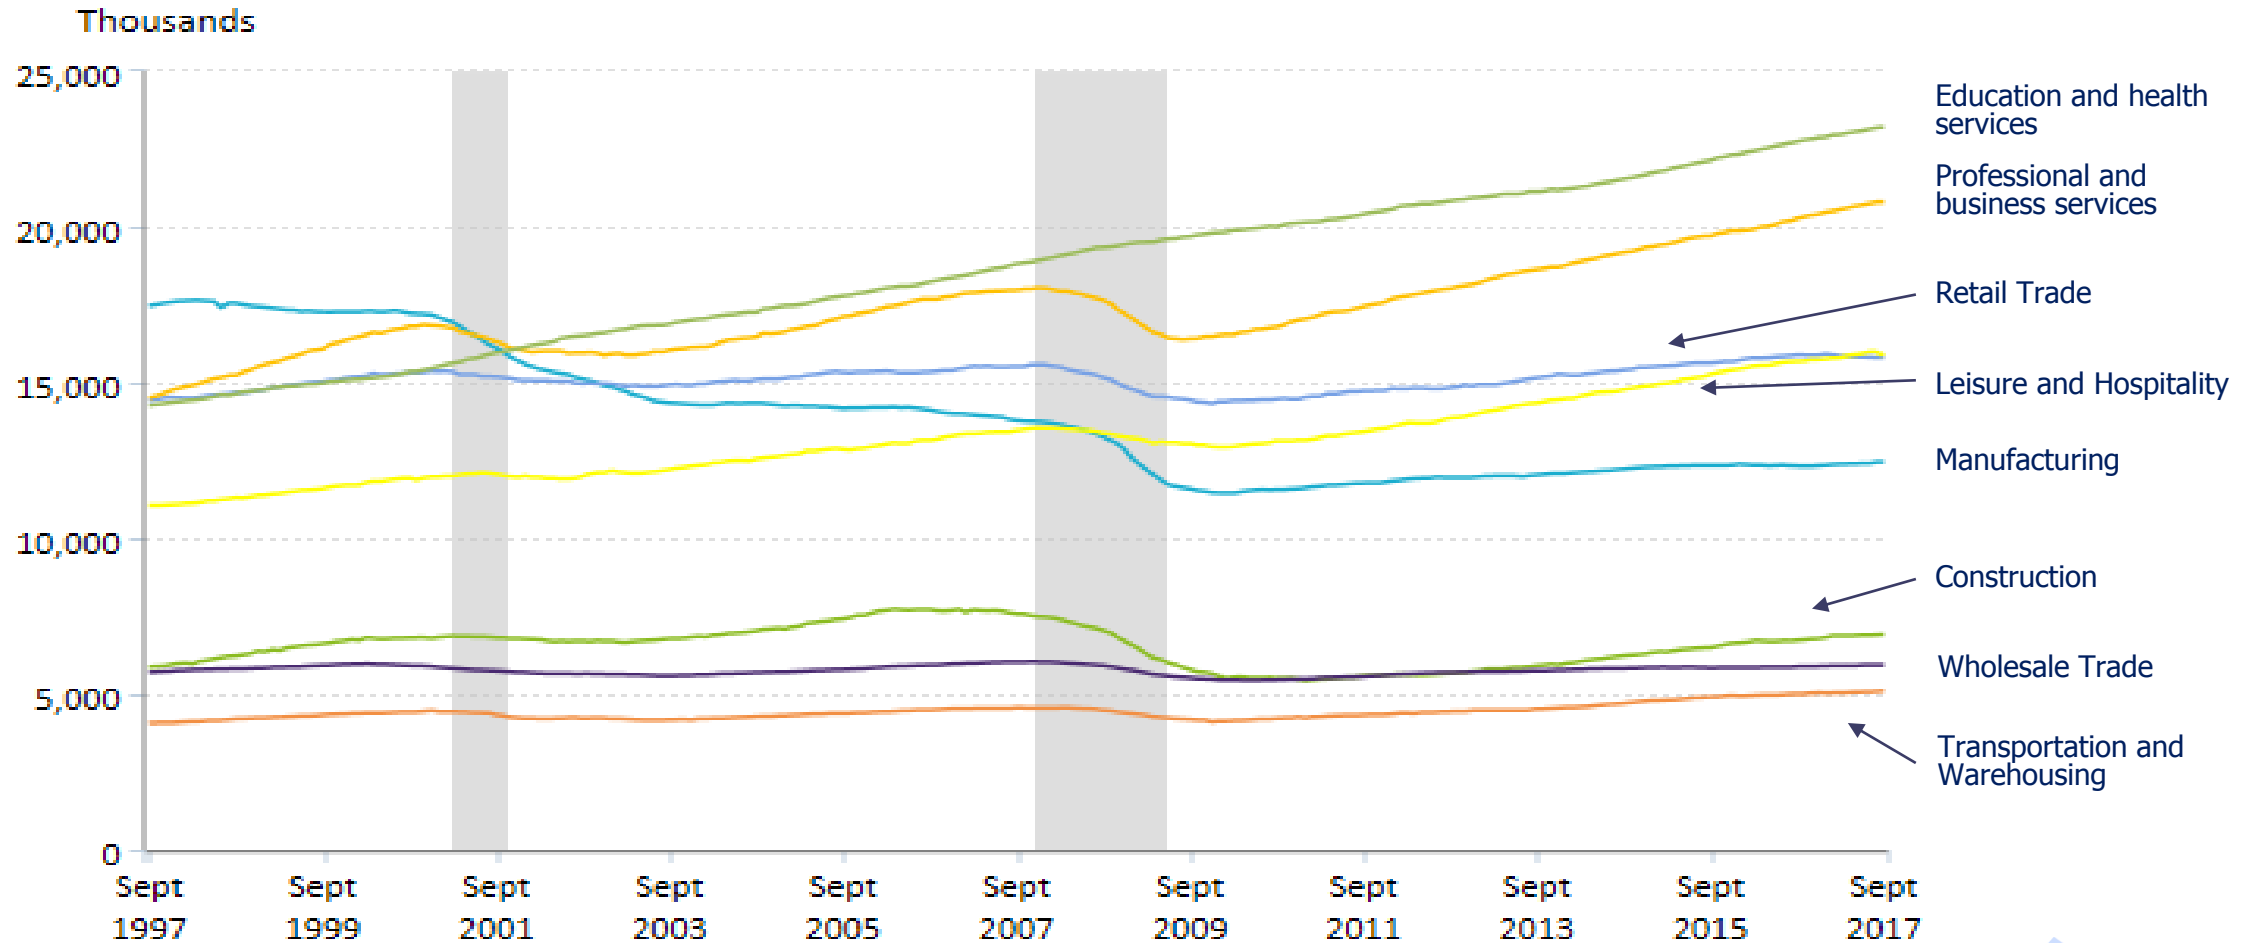

Half of Ellis County private industry employment is concentrated in two supersectors

Some industries still recovering

Employment level by U.S. industry, seasonally adjusted

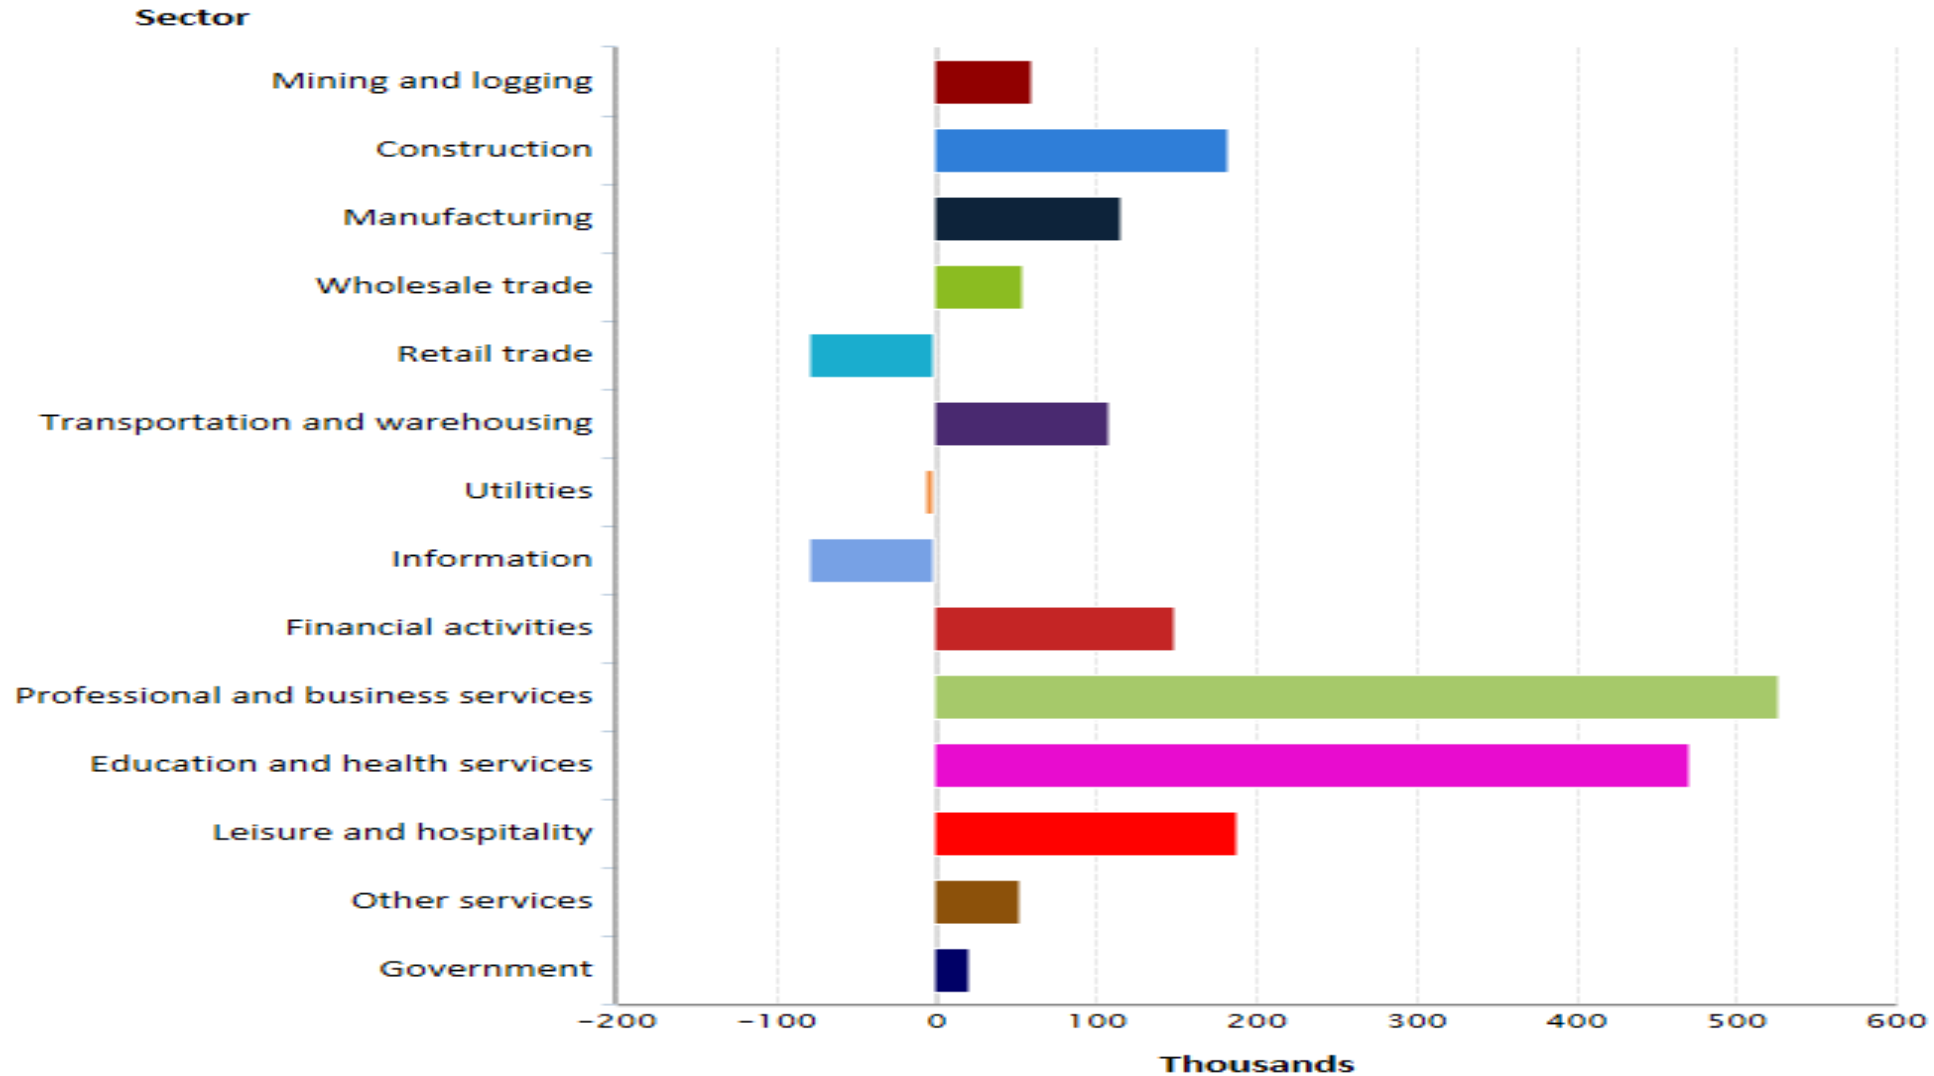

Note: Shaded area represents recession as determined by the National Bureau of Economic Research (NBER).

Source: Bureau of Labor Statistics.

Employment change over the year by industry
